The list of facilities below compiles GCAs' May 2012 Clean Water Act (CWA) Watch List. EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List may not mean that the facility has actually violated the law only that an evaluation or investigation by EPA or a state or local environmental agency has led those organizations to conclude that an unproven violation has in fact occurred. The Watch List does not identify which alleged violations of environmental laws may pose the greatest risk to public health or the environment. It is an automated report based on data from the Permit Compliance System (PCS) and Integrated Compliance Information System (ICIS).

Facilities on the Active May 2012 CWA Watch List

- Facilities are sorted by state.
- Facility ID is a combination of state and local Agency ID.
- Agency ID may be a 5- to 10-digit number.
- Facility Name is the name of the facility.
- Facility Street is the address of the facility.
- Facility City is the city within which the facility is located.
- Facility ZIP is the ZIP code associated with the facility.

For detailed information, please see the Watch List Fact Sheet (www.epa-echo.gov/echo/docs/watch_list_fact_sheet.pdf).
