

This table presents the number and type of industrial and hazardous waste (IHW) investigations completed by the Texas Commission on Environmental Quality (TCEQ) in the specified reporting periods. The source of this data is the TCEQ's Consolidated Compliance and Enforcement Data System. Many IHW investigations conducted by the TCEQ are not reflected in EPA's national data systems, such as investigations conducted at facilities that do not have an EPA identification number (conditionally exempt small quantity generators). In addition, multiple investigations conducted at a single facility may only count as one investigation for coverage requirements.

Type of Industrial and Hazardous Waste (IHW) Investigation	Number of IHW Investigations October 1, 2009 - September 30, 2010	Number of IHW Investigations October 1, 2005 - September 30, 2010
Treatment, Storage and Disposal Facility	56 (92)*	273
Large Quantity Generator	124	561
Large Quantity Generator (focused)	26	241
Small Quantity Generator	114	622
Small Quantity Generator (focused)	40	102
Conditionally Exempt Small Quantity Generator	196	1837
Conditionally Exempt Small Quantity Generator (focused)	77	188
Transporter/Transfer Facility	27	89
Transporter/Transfer Facility (focused)	14	58
Texas/Mexico Border Warehouse (initiative)	0	32
Comprehensive Groundwater Monitoring Evaluation	10	55
Operation and Maintenance	2	4
Boiler/Industrial Furnace	15	92
Class I Underground Injection Control Well	29	152
Class V Underground Injection Control Well (focused)	3	86
Subpart AA, BB or CC	37	124
On-Site Follow Up	96	411
Closure/Site Assessment	5	63
Sampling/Focused Sampling	42	164
Complaint	207	1129
Record Review	311	1221
Totals	1375	7504

*number in parenthesis represents number completed in both FY09 and FY10 (October 1, 2008 – September 30, 2010)
